

Cookies Policy

We use cookies to collect and analyze information on site performance and usage and to ensure you can successfully navigate throughout the site. By clicking the “Okay” button to your right or by clicking on any site content, you agree to the placement of cookies on your computer. For more information, see our [Privacy Policy](#).

“Cookies” are small pieces of information stored by your browser or other application on your computer's browser or hard drive, which you may accept or decline. The “cookie” helps us to bookmark your previous visits and also improves your navigation of our site. We use the data collected to determine what kind of information is important to you and to improve the appearance and performance of the website itself. The “help” portion of the toolbar on most browsers will tell you how to prevent your browser from accepting new cookies, how to have the browser notify you when you receive new cookies or how to disable cookies altogether. If you reject cookies, you may not be able to participate in certain activities or receive a promotion tailored to you. The Site does not control and do not guarantee the effectiveness of browser-based tools for managing cookies.

We or our partners may also use Flash cookies (also known as Local Stored Objects) or other similar technologies. A Flash cookie is a small data file placed on a computer using Adobe Flash or similar technology that may be built into your computer or downloaded or installed by you to your computer. We use these technologies to personalize and enhance your online experience, facilitate processes, and personalize and store your settings. Flash cookies may help our website visitors to, for example, set volume preference associated with a video experience, play games and perform surveys. They help us improve our Site by measuring which areas are of greatest interest to customers. They may be recognized by other sites or by our marketing or business partners. Flash cookies are different from browser cookies and the cookie management tools provided by your browser may not remove Flash cookies. Click [here](#) to learn how to manage privacy and storage settings for Flash cookies. If you disable Flash cookies or other similar technologies, please be aware that you may not have access to certain features and services that make your online experience more efficient and enjoyable.

We may also use web beacons, which are electronic images that may be used on our Site or in our emails. We use web beacons to deliver cookies, count visits, understand usage and campaign effectiveness and to tell if an email has been opened and acted upon.
